

**In Class Activity 01**  
**SE 5105- Evolution Processes and Activities**

**Date: 04.07.2024**

**Time: 45 Minutes**

1. What is Software Maintenance? Explain.
2. Briefly explain the major types of maintenance.
3. What do you think about maintenance cost?
4. What is Maintenance prediction? What are the areas of predicting maintenance?
5. What is Change prediction?
6. What are the factors affecting for system complexity?
7. What is Software Re-engineering?
8. What are the Reengineering process activities? Briefly explain.
9. List down the reengineering approaches.
10. List down the factors affecting for re- engineering.
